## Conflict of Interest Policy

Manuscript number (if applicable):	Article Title - Immediate and highly sensitive aversion response to a novel food item after Ah receptor stimulation - a protective mechanism limiting intake of toxic chemicals?
Author name: Marjo Niittynen	

**Declarations**  
*Toxicology Letters* requires that all authors sign a declaration of conflicting interests. If you have nothing to declare in any of these categories then this should be stated.

**Conflict of Interest and Source of Funding**  
A conflict of interest exists when an author or the author's institution has a financial or other relationship with other people or organizations that may inappropriately influence the author's actions. All submissions to *Toxicology Letters* must include disclosure of all relationships that could be viewed as presenting a potential conflict of interest. *Toxicology Letters* may use such information as a basis for editorial decisions and may publish such disclosures if they are believed to be important to readers in judging the article.

**Conflict of Interest Statement for Authors**  
All authors must disclose any financial, personal, or their relationships with other people or organizations within 3 years of beginning the work submitted that could inappropriately influence the work submitted. Examples of conflicts include employment, consultancies, stock ownership, paid expert testimony, patent applications/registrations, and grants. If there are no conflicts of interest, authors should state that there are none in the box below. Investigators should disclose potential conflicts to participants in clinical trials and other studies and should state in the manuscript whether they have done so. *Toxicology Letters* may decide not to publish on the basis of a declared conflict, such as the financial interest of an author in a company (or its competitors) that makes a product discussed in the paper.

Please state any competing interests

None.

**Role of Funding Source**  
All sources of funding should be declared in the box below. Authors must also describe the role of the study sponsor(s), if any, in a study design; in the collection, analysis, and interpretation of data; in the writing of the report; and in the decision to submit the paper for publication. If the study sponsor(s) had no such involvement, the authors should so state.

**Please state any sources of funding for your research**  
This work was supported by the Graduate School in Environmental Health (Ministry of Education, Finland) [S.L.] and by grants from the Centre of Excellence Program of the Academy of Finland to the Centre of Environmental Health Risk Analysis [Grant no. 53307] and from the Academy of Finland [Grant no. 123345 to R.P.]. Additional grants from the following Finnish foundations: Societas Biologica Fennica Vanamo, Foundation of Emil Aaltonen and the Finnish Cultural Foundation, Regional fund of Northern Savo [S.L.].  
Study sponsors had no role in study design; in the collection, analysis, and interpretation of data; in the writing of the report; and in the decision to submit the paper for publication.

**Signature** (a scanned signature is acceptable, but each author must sign)
