KEY SKILLS

Jussi Nissilä works as Senior Analyst at Oxford Research. He has over ten years of experience in project management, research and strategy coordination. Jussi is adept in designing and managing both research and development projects, strategy development and planning and facilitation of related events. His strongest areas of expertise include IT, innovation systems and cross-sector collaboration.

Prior to working for Oxford Research, Jussi worked for Ministry of Transport and Communication in government smart strategy development and open data projects. Prior to that he directed an international cooperation programme on open knowledge and education at Finnish Institute in London. Jussi has also a long history in working for the academia, including research and education related tasks. Jussi is also a co-founder and board member of Open Knowledge Finland.
